About Me

I'm Sunand T, a MEAR stack web developer skilled in MongoDB, Express.js, Angular/React, and Node.js.

I build responsive, high-performance web applications with clean, maintainable code.

My passion is turning ideas into seamless and impactful digital experiences

Experience

WEB DEVELOPMENT IN FUNK CRAFT STUDIO (internship) (2024)

- Proficient in Front-End Development: Skilled in HTML, CSS, and JavaScript to create responsive and interactive websites.
- Experience with Modern Frameworks: Familiar with React.js or Angular for building dynamic, user-friendly web applications.
- Experience in integrating RESTful APIs to enhance website functionality

Sales Executive & Social Media Publisher – Prince Motors TVS (3 month) (2025)

- Managed customer relations and boosted vehicle sales through effective communication; published engaging content on social media platforms to increase brand visibility and footfall; coordinated promotional campaigns to drive local market engagement

Mern Stack Web Development – DHA Academy (internship) (2025)

- Built and optimized web applications using MongoDB, Express.js, React, and Node.js.
- Developed responsive front-end interfaces and integrated them with RESTful APIs.
- Assisted in database design, API creation, and backend logic implementation.
- Collaborated with senior developers to debug, test, and deploy projects.
- Gained hands-on experience in version control (Git) and agile development workflows.
